(54) INK SET FOR INKJET RECORDING AND INKJET RECORDING METHOD**(57)Abstract:**

PROBLEM TO BE SOLVED: To provide an ink set for inkjet recording which can easily provide a high image quality independently of the kind of paper (especially, exclusive paper for inkjet, plain paper); and an inkjet recording method using the same.

SOLUTION: The ink set for inkjet recording comprises at least one kind of 'a resin-containing pigment ink containing water and a pigment made water-dispersible with a resin' and at least one kind of 'a self-dispersible pigment ink containing water and a pigment water-dispersible in the absence of a dispersant' and is composed so that at least one kind of the resin-containing pigment ink and at least one kind of the self-dispersible pigment ink correspond to each other in terms of hue. The inkjet recording method using this ink set uses the resin-containing pigment ink for printing exclusive paper for inkjet printing and uses the self-dispersible pigment ink for printing plain paper.
